The Comptroller shall make the reductions in appropriations no later than January 31, 1998 for fiscal year 1998 and no later than September I, 1998 for fiscal year 1990.

Each general academic institution that chooses to impose increased tuition on students that have previously attempted 170 or more semester credit hours, shall maintain separate records of those additional tuition revenues and shall provide this information to the Legislature through the budget process for the 2000-2001 biennium.

GENERAL PROVISIONS

The provisions set forth in this and all other Articles of this Act are limitations on the appropriations made by this Act. It is the purpose of the Legislature in enacting this bill only to appropriate funds and to restrict and limit by its provisions the amount and conditions under which the appropriations can be expended.

PROVISIONS RELATING TO THE POSITION CLASSIFICATION PLAN

Section 1. Except as otherwise specifically provided in this Act, expenditures of appropriations for the salaries of employees in classified positions in all affected agencies appropriate funds by this Act, other than institutions of higher education, university system offices, the Higher Education Coordinating Board, and the National Research Laboratory Commission, shall be governed by and be in conformity with the provisions of this Section, including the following lists of position classification numbers, position titles, salary group allocations, and retes of pay in classification salary schedules hereinafter provided. As used with respect to salary ranges, "minimum" means the lowest rate in a salary range; "midpoint" means the rate designated as Step 5 in Salary Schedule A: "midpoint" for Salary Schedule B will be determined by adding the minimum and maximum rates of a salary group and dividing the sum by two; and "maximum" means the highest rate designated in a salary range. With respect to Salary Schedule C, annual rate listed are actual salaries to be paid to employees in the applicable salary groups, except for ranges in C1 and C10 which allow for career development progressions as established by the agencies.

Typically, they arise from recoveries of costs previously peld from a nonfederal fund source, indirect cost allocations, interest earned on federal funds, and minor sources such as the sale of fixed assets purchased with federal funds, Except for state agencies of higher education and their affiliated agencies, the expenditure of funds received and/or earned in accordance with this definition by state agencies is limited to the appropriation authority granted to each agency. any, that has not been set apart by the incurring of an obligation, commitment, or indebtednes; by the state agency authorized to spend the appropriation. A reference in this Act to "unexpended balance" or "UB." is a reference to the unobligated balance of an amount appropriated by this Act for the fiscal year ending August 31, 1998, unless a contrary meaning is clearly indicated.

Sec. 24. Interpretation of Estimates. In the event the amounts of federal funds, local funds, or funds other than appropriations from the General Revenue Fund, have been estimated in this Act in sums greater than are actually received by the respective agencies of the state, this Act shall not be construed as appropriating additional funds from General Revenue to make up such differences. Wherever the language of this Act appropriates all receipts and/or balances from a specified source but uses an estimated amount to inform the Legislature and the public, the estimated figure is not to be construed as a limitation on the amount appropriated.

Sec. 25. Emergency and Deficiency Grants out of Special Funds. For the purposes of V.T.C.A., Government Code, Section 403.075 and V.T.C.A., Government Code, Section 401.061, appropriations to the Office of the Governor from "special funds" shall include excess revenues from General Revenue Fund-Dedicated accounts that were previously special funds above those estimated by the Comptroller in certifying this Act.

GENERAL LIMITATIONS ON EXPENDITURES

Sec. 26. Excess Obligations Prohibited. No department or agency specified in this Act shall incur an obligation in excess of the amounts appropriated to it for the respective objects or purposes named. As a specific exception to this provision the General Services Commission may determine that a proposed installment purchase arrangement is cost effective and certify this finding in response to an agency request. Such a finding may be made for obligations incurred for the purchase or lease of automated information system equipment only if such department or agency has on file with the Department of Information Resources (DIR) a Blennial Operating Plan, including any amendments thereto, and such plan has been approved by DIR. In the event this provision is violated, the State Auditor shall certify the fact and the amount of over-obligation to the Comptroller, and the Comptroller shall deduct an amount or amounts equivalent to such over-obligation from the salary or other compensation due the responsible disbursing or requisitioning officer or employee, and apply the amount to the payment of the obligation. This provision is specified pursuant to Section 10, Article XVI, of the Constitution of Texes.

Sec. 27. Interpretation of Legislative intent. It is the intent of the Legislature that funds appropriated by this Act be expended, as nearly as practicable, for the purposes for which they were appropriated. In the event departments and agencies cannot determine legislative purpose from the pattern of appropriations they shall seek to determine that purpose from the proceedings of the legislative committees responsible for proposing appropriations for the State of Texas.

It is further provided that the Comptroller shall not refuse to pass for payment a legal claim, factually justified, for which a valid appropriation has been made.

Sec. 28. Last Guarter Expenditures. It is specifically provided that all state agencies, boards, commissions, departments and other governmental units using funds appropriated by this Act may not expend during the last quarter of any fiscal year more than one-third of the funds appropriated for that fiscal year. Subject to any specific restrictions in other provisions of this Act, appropriations contained in this Act may be transferred from one appropriation item to another appropriation item in amounts not to exceed 25 percent for the fiscal year, at the discretion of the chief administrative officer of the agency, department, or institution. As a specific exception to this section, funds appropriated for capital budget items are subject to restrictions contained elsewhere in this Act.

Funds appropriated by this Act in items of appropriation which are part of a Goal for "Indirect Administrative and Support Costs" or "Indirect Administration" may also be transferred from one appropriation item to another appropriation item within that same Goal without limitation as to the amount of such a transfer.

Unless otherwise specifically authorized by this Act, none of the funds appropriated by this Act ont of the General Revenue Fund may be expended for employee benefit copts, or other indirect costs, associated with the payment of salaries and wages if the salaries and wages are paid from a source other than the General Revenue Fund. Payments for employee benefit costs for salaries and wages paid from sources, including payments received pursuant to interagency agreements or as contract receipts, other than the General Revenue Fund shall be made in proportion to the source of funds from which the respective salary or wage is paid or, if the Computoller of Public Accounts determines that achieving proportionality at the time the payment is made would be impractical or inefficient, then the General Revenue Fund shall be rein bursed for any such payment made out of the General Revenue Fund. The Comptroller of Public Accounts shall develop rules to provide for the administration of this provision.

Each agency and institution of higher education having General Revenue Fund appropriations and other sources of financing shall file with the Comptroller of Public Accounts and the Office of the State Auditor a schedule demonstrating proportionality. The statement is due January 15, for the salaries, wages, and benefits of the preceding year ended August 31, in a format prescribed by the Comptroller. The State Auditor shall review in his audit of respective agencies compliance with the provisions of this section. The Comptroller of Public Accounts, upon receipt of notification from the State Auditor's office of amounts disproportionally paid from General Revenue Fund appropriations, shall reduce current year General Revenue Fund appropriations of the agency or institution until such time as such amounts are repaid from non General Revenue Fund sources.
